

Informative Owens Update #4

WHAT IF YOU DIDN'T HAVE TO DO THIS ?

This month I'm pleased to announce an *Owens Team Exclusive*, a QuickTime presentation for you that can be personalized with your website address to automatically and effectively attract new affiliates to your GDI teams. Imagine this presentation on, your web site, YouTube, Twitter, FaceBook, wherever you like, working 24/7 to attract new members to your individual teams.

Before you play the presentation, let me explain the link:
www.cyberneticincome.com you'll see at the end of mine.

We have discovered that if you invest the unused portion, of your GDI income stream into the FOREX program we previously explained, you really do achieve compounding exponential financial growth. In addition to our expanding GDI income, we are also able to leverage the growing FOREX balance at rates exceeding 20% per month. (compare that with the banks)

So, in addition to www.weblegacy.ws, we utilized an old domain we had sitting around and are using it to promote GDI in tandem with FOREX to generate unprecedented financial growth and stability. That's why you will notice the new link - www.cyberneticincome.com

Be our guest: http://www.youtube.com/watch?v=OfMO8ijJKSk&feature=channel_page

To any Owens Team member who has a completed .ws web site, I would be pleased to create the above presentation for you with your website address showing at the end. Due to the size and quality of the presentation, it's too big for email so I will provide you with a link that will allow you to download it when it's ready.

Just send me the URL for your web site and I'll do the rest.

If you need the most recent Quick Time player: <http://www.apple.com/quicktime/>

Informative Owens Update #4

SKYPE

If you haven't already, you really should seriously consider using Skype. Skype is the Voice-Over Internet Protocol (VOIP) that allows you to make phone calls over the internet. It's a free download and let's you call anyone on the Skype network, worldwide at no charge!

For a small additional fee you can include that to be any phone in North America. I use it all the time. Now you can call your team members and talk for hours, free! If you have a webcam, you can make your call a video call.

Skype also has a free video email service. <http://www.skypevideocards.com/> Try it out too!

And now the best part, you have access to a global telephone book of about 15 million people. You already have a website, and soon, you will have a compelling video presentation.

When prospects arrive at your website they can view the GDI presentation and join your team automatically.

Need I say more?

www.skype.com

Informative Owens Update #4

And finally, chatting is really popular these days and GDI is staying on the cutting edge. Did you know that you have access to a free GDI chatting service that allows you to “chat” with your entire team all at once?

Just go to good old, www.website.ws, log in and click on:

and then, [Live Chat with Your Upline and Downline](#)

It's all there for you ready to use. By all means try it out.

*A new exclusive personalized presentation for you,
complimentary worldwide telephone calls
with a 15 million member database,
video phone calls, video emails
and free live chat.*

Should be a pretty interesting month for you.

Awesome Wishes, (Send this to your team)

Garry & Ginger Owens
