

## Milestones

As directors of your own global international business, you have the unique ability of controlling your own destiny by simply managing your own business. You can actually monitor your own progress and make “course corrections” as needed. As you develop teams and they develop their teams there are a series of milestones that naturally occur. By having these milestones displayed, you can discover precisely where you are and what it takes to get to the next level and eventually retire. [Where are you now?](#)

### Activate - Teach - Manage

Milestone 1  
10 Team Members

With ten members *activated* on your team, not necessarily on your first line, the cost of your web site is now paid, there are no monthly overheads and any additional income you earn is pure profit. *Your earnings begin.*

Milestone 2  
10 First Line

With only 10 people *activated* on your first line you can now focus your attention on *teaching* your team to develop their respective teams. You have created the foundation for developing 6 figures of monthly income for life and at this stage your primary focus should be on *teaching* your existing team. *Your earnings increase.*

Milestone 3  
100 Second Line

By *managing* your “top ten” first line team by teaching them to get their ten, you have completed the middle step to completing your income for life. *Your earnings expand.*

Milestone 4  
1,000 Third Line

Again, by simple *management* your second line has established their ten members. You have pleasant choices at this level. If you have in access of 5,000 on your entire team, you have qualified for the Infinity Bonus and are paid on your entire organization, not just the first five levels. If you wish, you can repeat the process and continue to add some new first line executives. *Your earnings multiply.*

Milestone 5  
*Retire*

You have taught your ten to teach their ten. You have a global team in place, that will, by the nature of their own earnings, remain loyal and consistent. Your monthly income grows exponentially and the reason you started this entire procedure has been fulfilled.

*Your earnings continue to grow, exponentially.*

[Now You Can](#)

The plan is proven, effective and works. If for any reason you are not satisfied with your personal rate of growth, it's likely because you are simply not helping enough people get what they want, in order for you to get what you want.
