

Uploading to YouTube

When you have your personalized copy of “What If You Didn’t Have To Do This?” and “Create You Own Web Site” you will want to have a convenient system of showing them.

You Tube is a complimentary, well respected and easy vehicle for you to use.

You will need to create an account and user name with YouTube before uploading any videos. It’s easy and it’s free. Here’s how to do it:

First go to [You Tube](#)

In the upper right hand corner click on [\[Sign Up\]](#)

Fill in the form to create a free account with a username.

After you have your account you will be able to upload your presentations. (they are formatted to show in HD) and you may have to wait a few hours for confirmation.

In any event what you really need is the link so that you can show it from your web site, put it on emails, use it in social networking sites...you get the idea.

So when you finally get to see it > **copy the url!** It will look something like this: http://www.youtube.com/watch?v=M3D0KSIj-Y8&feature=channel_page

Now you can use your url to create a [hyperlink](#) like this:

Hi [\[prospect\]](#) thought you might appreciate this.

Turn up you speakers and [click here](#)

Let me know what you think.

Sincerely,

[\[Your name\]](#)

There you go - Enjoy !
